SKILLS

PROGRAMMING

• Competitive Programming
• Problem Solving • DSA

Languages :

•C++

Web Development :

• HTML
• CSS
• Bootstrap
• JavaScript
• PHP

Database :

•MySQL

Core Subjects :

• Data Structures and Algorithms
• Object Oriented Programming
• Database Management Systems
• Operating System

PROJECTS

SORTSPECTRA : SORTING VISUALIZER

- Website which contains visualizations of various sorting algorithms.
- Website allows users to Change Speed and Input Array elements.
- Algorithms - Bubble Sort, Selection Sort, Insertion Sort, Quick Sort and Merge Sort.

BLOODHUB : BLOOD DONATION MANAGEMENT SYSTEM

- Donors and Admin can SignUp and Login to the website using their UserName and Password.
- The donor can access and view the information related to available blood Inventory, Announcements, and ongoing Campaigns.
- The Administrator has the privilege to edit details of donors and can create announcements for campaigns.

ACHIEVEMENTS

- **Knight Max (1822)** on Leetcode.
- **3* Max (1679)** Coder on Codechef.
- **5*** Badges on HackerRank **(C++,Problem Solving).**
- **Pupil Max (1329)** on CodeForces.
- Secured **Global Rank 81** among 7000+ participants in the Codechef June Long 2022.
- Secured **Global Rank 506** among 23000+ participants in the LeetCode Biweekly Contest 106.
- Secured **Global Rank 382** among 12000+ participants in the June Cook-Off 2022.
- Solved over **1500+ problems** on various Coding platforms.
- Scored **99.603 %ile** in MHT-CET 2020.

CO-CURRICULAR ACTIVITIES

- Actively participated in various **Coding Competition**.
- **Problem Setter** for various Coding Events.
